How the Retail Industry Has Evolved in the Digital Age?

The retail industry is shifting from fragmented operations to unified intelligence ecosystems. Solutions by Hikvision assist this shift by integrating video analytics and data to provide two main benefits:

- **Real-time responsiveness:** Interconnected systems empower retailers to make immediate operational adjustments.
- **Data-driven decision-making:** The fusion of physical and digital insights enables smarter, more precise strategies.

Hikvision's retail solutions focus on optimizing staff workflows, personalizing customer journeys, and accelerating the digital transformation of traditional stores.

Smart Retail Solution Overview

Central Management

Network connection: Quick deployment across business units.
Device monitoring: Real-time device health monitoring via HikCentral dashboard.
Instant alerts: Pop-up alerts for detected events.

Store Audit

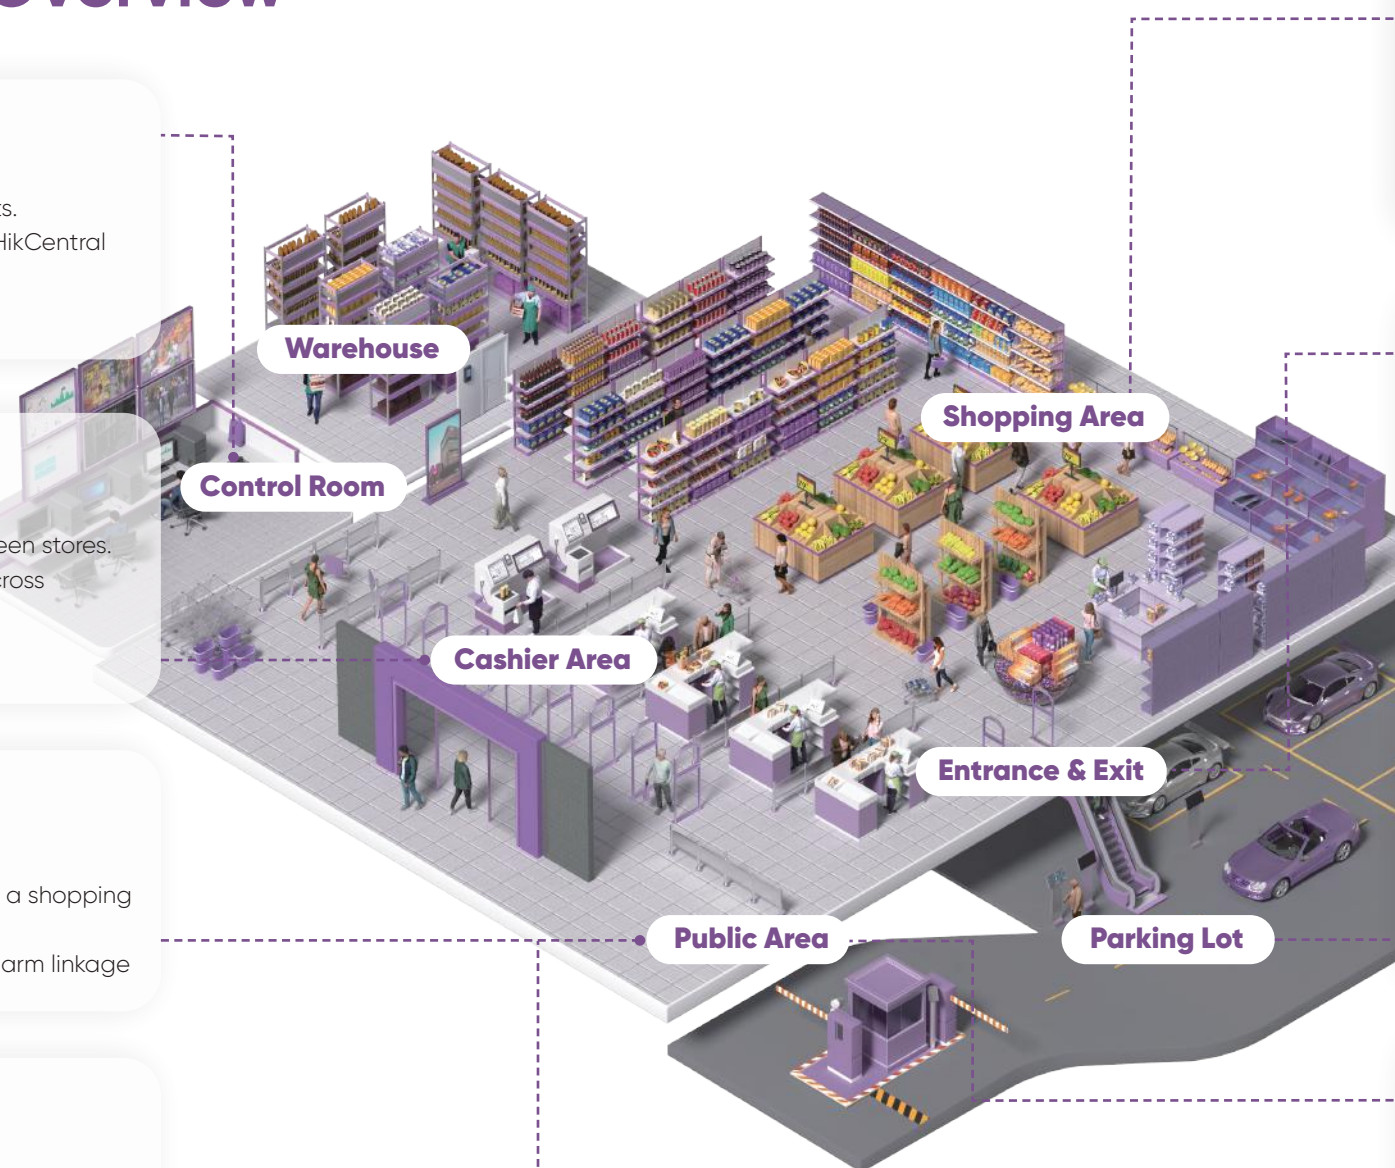

Remote auditing: Reduce paperwork and travel costs between stores.
Process standardization: Ensure visibility and consistency across operations.
Quick inspections: Real-time incident resolution.

Commercial Audio

Commercial ads: Provide promotion information and create a shopping atmosphere
Public broadcast: Emergency notice, two-way audio and alarm linkage

Commercial Display

Engaging contents: Showcase dynamic visuals to keep shoppers interested.
Enhanced experience: Create an immersive in-store vibe to boost sales.

In-Store Business Intelligence

Efficient data usage: Capture customer flow and other offline data, and transform them into actionable insights.
Optimized operation: Enhance store efficiency and data-driven decision-making.

Loss Prevention

Goods safety: Safeguard inventory from theft or damage.
Staff protection: Ensure the safety of your employees.
Customer safety: Create a secure shopping experience for customers.

Parking Management

Parking convenience: Light indicators guide to vacant spots; inquiry machines to find cars.
Seamless access: Flexible entry/exit, multiple credentials, and payment options.
Strategy optimization: Use parking lot usage data to create tailored plans that maximize efficiency and profits.

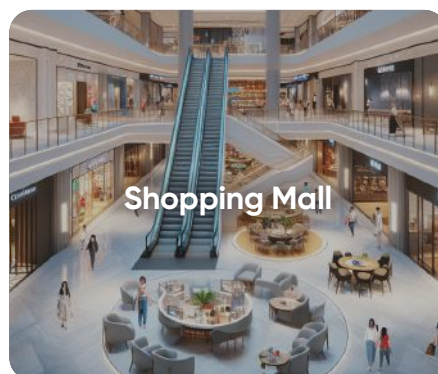

Portable Monitoring

Evidence collection: Record disputes and complaints promptly for resolution
Evidence management: Save and tag evidence centrally for future review and reporting

Central Management

As you grow your store networks, embracing central management solutions is essential for streamlining operations.

Hikcentral Professional is an all-in-one management platform that seamlessly connects and manages various Hikvision hardware products. This tool empowers you to effortlessly access and manage your systems, making your multi-location management more efficient.

Connect your stores and staff

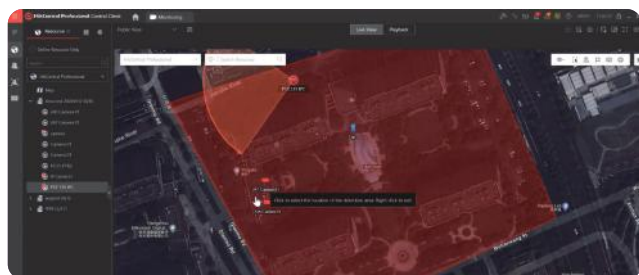

Security monitoring

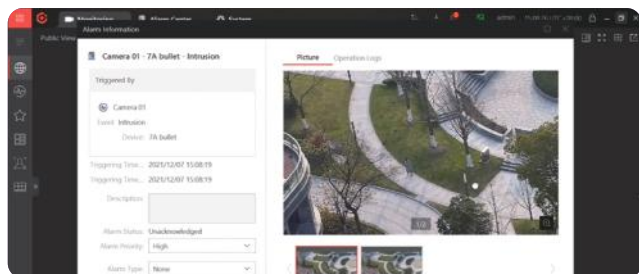

Monitor the health of in-store security systems and automate routine inspections. Ensure optimal performance and fast issue detection via proactive monitoring and scheduled diagnostics.

Visualized map for key areas

Timely alarm response

Visualized maintenance

Exception monitoring

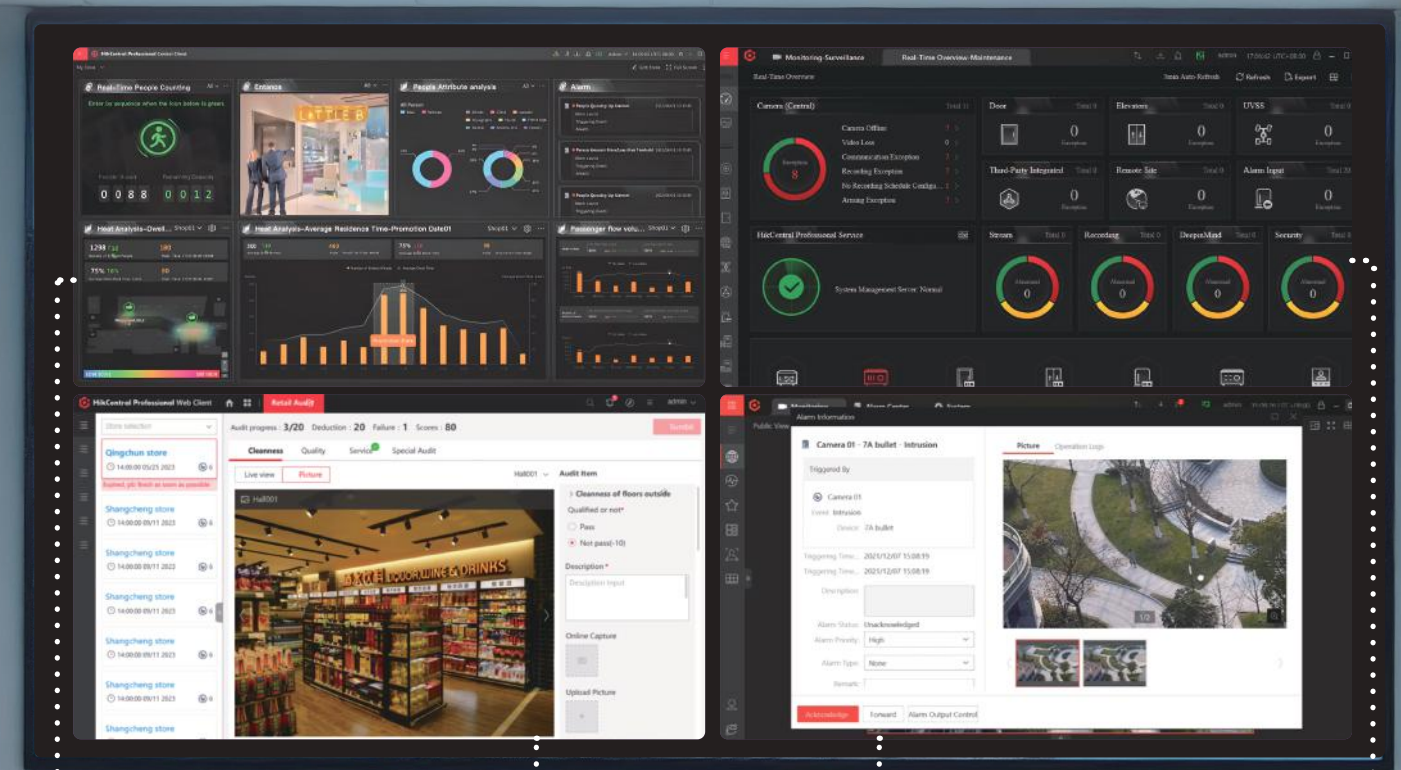

Proactive inspection

Video wall management

The smart video wall system enables flexible display of real-time live views, alarms, system status, and dashboards in one interface.

Operation data dashboard

Centralized display of diverse business intelligence data

Remote audit

Inspection from remote locations

Alarm handling

Real-time alarm verification via video

Health monitoring

Visualized system/device status briefing

Remote Audit

Hikvision's remote audit solution streamlines daily inspections with standardized workflows, ensuring efficiency, consistency, and no geographical limits for multi-location operations.

Why remote inspection is more effective & efficient?

On-site manual inspection

- ✗ **Fragmented info:** Key details lost in chats
- ✗ **Slow tracking:** Reliance on manual updates
- ✗ **Lack of data analysis:** No auto-generated reports

Remote quick inspection

- ✓ **Simple setup:** No hierarchies
- ✓ **Efficient:** Finish store inspection in 5 mins
- ✓ **Random checks:** Catch real issues anytime

Remote scheduled inspection

- ✓ **Clear process:** Track issues from start to finish
- ✓ **Collaborative:** Standardized steps for everyone
- ✓ **Smart decisions:** Get stats and reports instantly

Quick inspection

Return

Handling

Pass

- 1 Area & store performance: Rankings by inspection results
- 2 Employee performance: Progress of inspectors & handlers
- 3 Issue distribution analysis

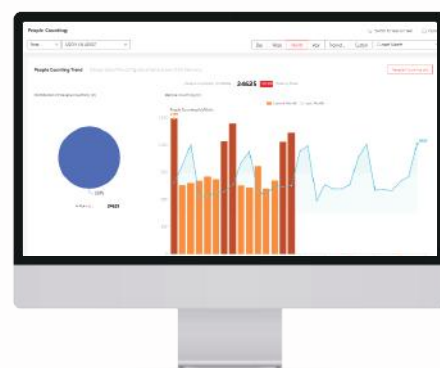

In-Store Business Intelligence

Hikvision's intelligent cameras capture metrics such as customer traffic, heatmaps, and queue patterns, while its integrated HCP-BI platform efficiently converts raw data into actionable insights, driving performance optimization and strategic decision-making.

Valid customer traffic

Eliminate duplicate entries and gain precise insights into actual customer footfall.

Visitors: 58
Staff Traffic: 25
Repeated Customer Traffic: 4
Valid Customer Traffic: 29

Walk-in rate

Measure and validate the impact of outdoor displays and window installations on driving customer walk-ins, providing actionable insights to optimize visual marketing strategies.

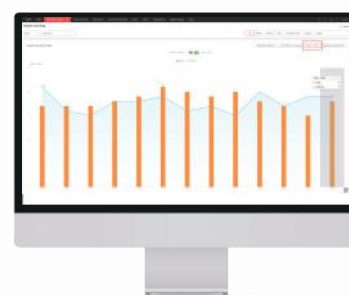

The Sales Tunnel

Total Traffic =
In-store + Pass-by Customer Traffic

In-store Customer Traffic

of
Transactions

Walk-in rate (%)
Identify sales opportunity:
outside or inside the store?

Global heatmap & Area dwell rate

Gain a clear understanding of customer attention distribution within your store by identifying high-traffic zones and dwell times, enabling optimized store layout and product placement strategies.

Heatmap

Dwell Rate Analysis

The dwelling time per individual exceeds 30 seconds.

Traffic Entries for the Area: 1,243
Number of Dwellers: 24
Average Dwell Rate: 13%

Queue management

Instant notifications ensure timely optimization to guarantee customer satisfaction at your branch.

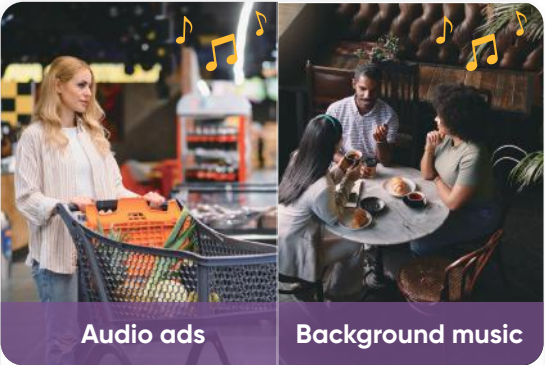

- 1 Waiting overtime times peaked at 17:00 and 20:00
- 2 Overcapacity occurrences reached their highest level at 20:00

Commercial Audio

Commercial audio is a strategic tool that enhances the shopping experience, reinforces brand identity, and encourages purchases.

Commercial Display

Hikvision's commercial display solutions transform retail spaces with visually captivating systems, delivering unforgettable brand experiences and dynamic product promotions that truly engage customers.

Exterior advertising

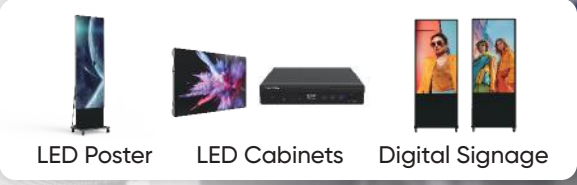

Why choose **Outdoor LED** instead of traditional lightboxes:

- 30.2% higher conversion
- Broader audience engagement
- Remote management, centralized control
- 90% lower maintenance costs

Shopping area advertisements

- Flexible content release
- Remote multi-device control
- Versatile material support for stunning visuals

LED Poster

LED Cabinets

Digital Signage

Catering information display

- Flexible content release
- Built-in templates for multiple scenarios

Digital Signage

Storefront promotion

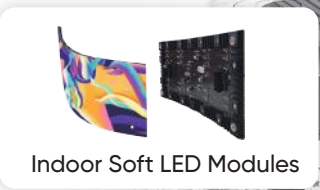

- 250 mm slim design, ideal for storefronts
- Misalignment & rotatable splicing for versatile shapes

Flex Series LED

Store decorations

- Strong flexibility with inward/outward bending
- Ideal for splicing diverse creative screens

Indoor Soft LED Modules

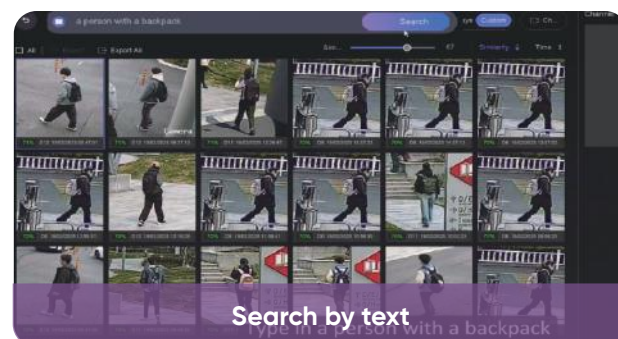

Loss Prevention

Loss prevention is critical to maximizing profits. Hikvision's innovative AI-powered solution offers valuable features like block list alarm and POS fraud detection, ensuring a smart and efficient approach to protecting your business.

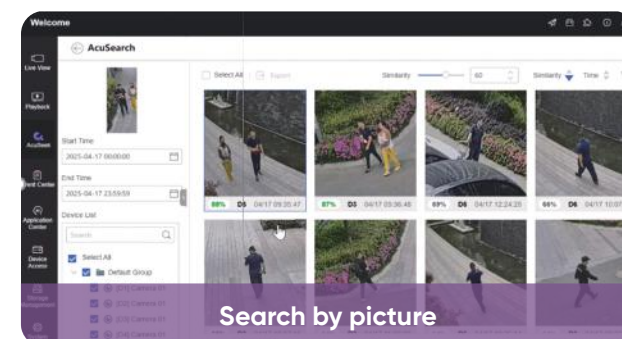

Acuseek & Acusearch

Find suspects fast

AcuSeek quickly locates the target

AcuSearch identifies accurately

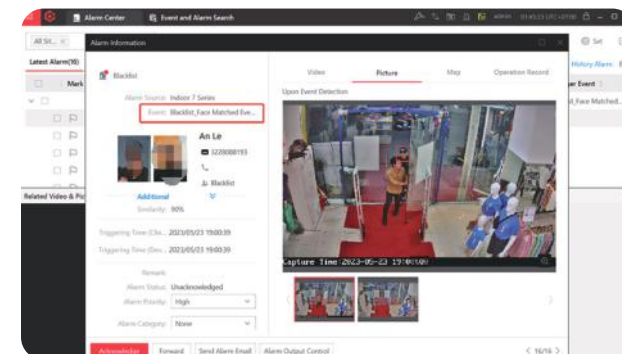

Block list alarm

Detect suspicious individuals early

Deploy cameras at key positions

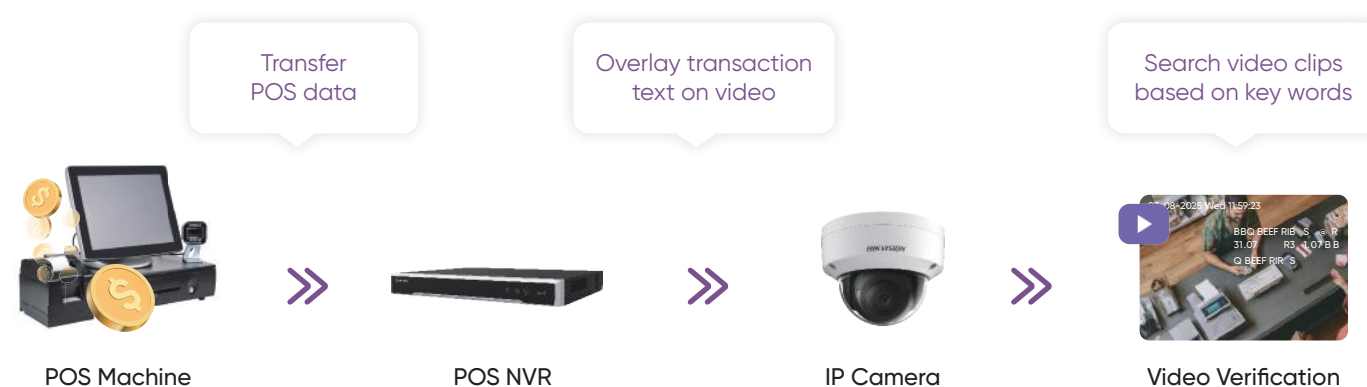

Alarm on blocked person entry

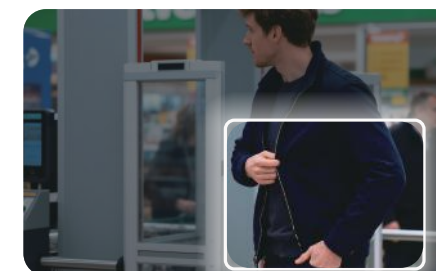

POS information overlay

Prevent theft and errors

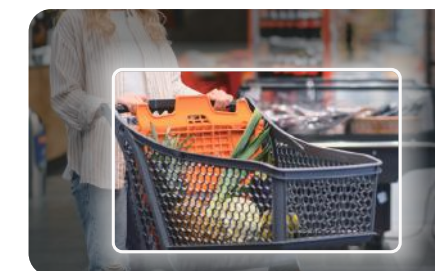

AIOP algorithms

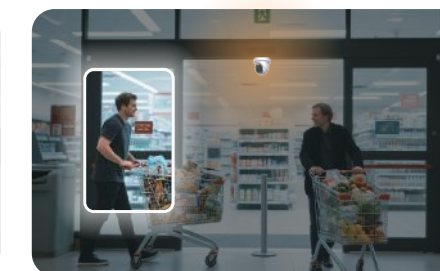

Alert in real time

Shoplifting detection

Shopping cart detection

Reverse entry detection

Inventory area protection

Secure goods and assets

Minmoe Access Control

- Multiple authentication methods: face, fingerprint, card, PIN, etc.
- Time & attendance management

Thermal Cameras for Temperature Monitoring

- Early fire detection
- Alarms + HD video

PDA for Asset Management

- In/outbound checks
- Stock & expiry tracking

Ultra-Low Temperature Cameras for Frozen Areas

- Operate from -60 to 65 °C

Parking Management

In complex retail environments like shopping malls and hypermarkets, the exterior boosts customer perceptions of safety just as much as the interior.

Hikvision's integrated security solution enhances vehicle management, delivering effortless experiences for shoppers and facility operators alike, ensuring a secure and enjoyable visit.

Entrance & exit management & payment system

Hikvision enhances the standard entrance and exit system with an innovative payment solution, ensuring a seamless and secure experience for customers while giving managers flexible charging options.

Product Showcase

Multi-Dimension People Counting Camera

iDS-2CD7146G2-IZS(2.8-12mm)

- High-quality imaging with 4 MP resolution
- 1/1.8" Progressive Scan CMOS
- Support multi-dimensional people counting

Dual-Lens People Counting Camera

DS-2CD6825G0/C-IVS(2mm)(B)

- Dual lens, 1/2.7" Progressive Scan CMOS, deep-learning-based people counting

Fisheye Camera

DS-2CD63C5G1-IVS(1.29mm)

- High resolution 12 MP
- Multi-dewarping mode
- Heat map analysis

Remote Inspection PTZ

DS-2DE4A425IWG-E

- The built-in microphone and speaker enable two-way audio
- 25 × optical zoom allows for closer viewing of subjects in expansive areas

Retail Customized NVR

DS-9632NI-M8(STD)/Retail

- Up to 32-ch IP camera inputs
- Support specialized cameras, including people-counting cameras, ANPR (automatic number plate recognition) cameras, and fisheye cameras

Software

HikCentral-P-BI Report-Module

- Intelligence report: Heatmap analysis, people counting, queue management, pathway analysis
- Additional: Exited/entered/entered and exited data, remote sites data, regional comparison data, waiting time and queue status data, email reports, heatmap analysis, etc.

HikCentral-P-Video Inspection/Module

- Support quick inspection, on-site inspection, and scheduled inspection, enabling the management, tracking, and evaluation of inspection task standardization through video or pictures.

Wall-Mounted Series

DP Series

DS-D60xxUN-DP

- 32"/43"/50"/55"/65"
- 4K*, 500 nit, 25% haze
- 4+32GB
- Min.9mm Even Bezel, 40mm Thickness

DP Series (High Brightness)

DS-D60xxUH-DP

- 43"/50"
- 4K, 700 nit, 25% haze
- 4+32GB
- Min.9mm Even Bezel, 40mm Thickness

Standing Series

Non-Touch Series

DS-D6055UN-D/S

- 55"
- 4K*, 500 nit
